

Danish Recommendations on Corporate Governance

Carlsberg A/S

2023

What can the template be used for?

This template is meant as a tool for Danish companies with shares admitted to trading on a regulated market who wish to report on the company's compliance with the recommendations on corporate governance in a standard reporting format.

Companies shall not consider compliance with the introductory principles. The principles seek to explain general reflections which companies may take into account when assessing which approach to take in respect of the individual recommendations under each section. The Committee's explanatory notes provided under some of the recommendations may be included as guidelines and inspiration for companies in implementing the recommendations. In this connection the explanatory notes are meant as a tool. Reporting on the Danish Committee's Recommendations on Corporate Governance must be made in relation to the recommendations – and not the principles or explanatory notes.

The report on corporate governance must be published as either part of the management commentary on the annual report or on the company's website with exact reference to the management commentary. The Committee believes that publication of the corporate governance report on the company's website - with exact reference to the report in the management commentary - creates the highest degree of transparency. Publication of the report on the company's website provides easier access for investors and other stakeholders.

Under the Danish Financial Statements Act a publication on the company's website requires that the URL address – where the corporate governance report is published – is stated in the management commentary in the annual report. The URL address must be the internet address which can be used to access the report **directly**.

There are further requirements to the preparation of the report on corporate governance and how it is to be published. The detailed requirements are described in Executive order no. 959 of 13 September 2019 on Publication of Reports pursuant to the Danish Financial Statements Act.

Notice: The template below contains the recommendations of the Danish Committee on Corporate Governance of 2 December 2020. The recommendations are available on the website of the Danish Committee on Corporate Governance, [corporategovernance.dk](https://www.corporategovernance.dk). Nasdaq Copenhagen A/S has decided to include the recommendations in the Nordic Main Market Rulebook for Issuers of Shares effective from 4 January 2021.

This template may be used for the preparation of the report on corporate governance in annual reports concerning financial years commencing 1 January 2021 or later.

Reporting and the comply or explain approach

It is stated in section 107 b of the Danish Financial Statements Act that a company with shares admitted to trading on a regulated market must include a report on corporate governance in the management commentary of the annual report.

This means that each company in the corporate governance statement must give an account of which recommendations the company has chosen to comply with and which ones they have not, regardless of whether complied with or deviated from the recommendation.

If a company deviates from parts of the recommendations, the company has to explain the reasons for the deviations, cf. section 107 b (1) (iii) of the Danish Financial Statements Act. The company has to explain why it has chosen not to comply with a recommendation and what it has chosen to do instead.

A company may thus be compliant if the company instead of complying with a recommendation explains the above mentioned.

Note that the reporting must reflect the company's position at the time of publication of the annual report. However, any significant changes that occurred after the completion of the company's accounts, but before the publication of the annual report, should be included in the corporate governance statement.

In order to create the transparency necessary for investors and other stakeholders, the company must respond to each recommendation and provide information on whether the company complies with the recommendation in question.

Statutory report on corporate governance, cf. section 107 b of the Danish Financial Statements Act.

The report constitutes a part of the management commentary on the annual report concerning the financial year: 2023
